

THE CARTEL FOODS

Dated: 5 March 2025

To Whom It May Concern

It is a privilege to write this letter of recommendation for Ms. Zainab, whose exceptional performance and professionalism during her internship at Gloria Jeans Coffees left a strong and lasting impression. As her supervisor in the Marketing and Business Development Department from January 2024 to February 2025, I had the opportunity to closely observe her dedication, creativity, and strategic approach to every task she undertook.

From the outset, Zainab distinguished herself as a highly motivated and insightful individual with a rare ability to blend analytical precision with creative vision. She played an integral role in planning and executing both digital and in-store marketing campaigns, leveraging data-driven insights to enhance customer engagement and drive measurable improvements in sales performance. Her contributions to campaign development, performance evaluations, and marketing analytics informed several key business decisions during her time with us.

Zainab's analytical acumen was complemented by her creative flair. She skillfully interpreted customer feedback and POS data to identify emerging consumer trends, optimize promotional strategies, and elevate campaign effectiveness. Her designs for marketing materials and management of social media campaigns strengthened the brand's digital presence and improved overall community engagement.

Throughout her internship, Zainab consistently demonstrated initiative, reliability, and strong leadership qualities. She approached every project with enthusiasm and professionalism, effectively managing complex assignments while maintaining excellent collaboration within the team. Her clear communication, disciplined work ethic, and ability to translate strategic ideas into actionable outcomes made her an invaluable asset to our department.

I am confident that Zainab will bring the same level of commitment, intelligence, and innovation to any academic or professional environment she enters. Her strong foundation in business administration, digital marketing, and analytics, combined with her curiosity and drive for continuous growth, makes her an outstanding candidate for graduate studies in Business Analytics or any related field.
